I further represent that I have reviewed the evidentiary

documents establishing the assignments and certify, that to the best of my knowledge and belief, title to the above-identified second application is in Corning Incorporated.

As used herein, the term "extension" includes the increase in the seventeen year term of patents under the Uruguay Round Agreement Act, as well as other extensions granted in the future. Petitioner hereby further agrees that any patent granted on the above-captioned application or any patent of the above-captioned application subject to a re-examination proceeding shall be enforceable only for and during such period that said patent is commonly owned with the application (or resultant patent) which formed the basis for the judicially created double patenting, this agreement to run with any patent granted on the above-captioned application and to be binding upon the grantee, its successors or assigns.

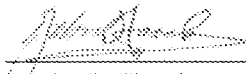

Petitioner does not disclaim any part of any patent granted on the above-captioned application Serial No.10/602242, prior to the end of the full statutory term of a patent granted on the second application, Serial No. 09/974,415, as shortened by any terminal disclaimer filed prior to the patent grant, in the event that the later patent expires prior to its full statutory term by reason of, for example, failure to pay a maintenance fee, a holding of unenforceability, a holding of invalidity, the filing of a statutory disclaimer in whole or in part under 35 U.S.C. § 154 and 173 and 37 C.F.R. § 1.321(a), or cancellation of all claims by a reexamination certificate.

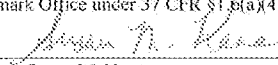

In accordance with the fee schedule set forth in 37 C.F.R. § 1.20(d), the required fee of \$140.00 is authorized by Corning Incorporated to be charged as well as any additional fees due in connection with the filing of this response to our Deposit Account No. 03-3325. The undersigned is authorized to act on behalf of assignee Corning Incorporated.
